

Telehealth in Lewy Body Dementia (LBD)

Take part in research study to help develop a virtual program.

We want to create and deliver a Lewy body specific telehealth program.

What's involved?

- 2 phone interviews with the researcher
- Tele-medicine appointments with our LBD care team including
 - Neurologist
 - Physical therapy
 - Occupational therapy
 - Speech therapy
 - Nutritionist
 - Social worker

If you are interested, contact:

Noheli Bedenfield, MHA 352-733-2419

noheli.bedenfield@neurology.ufl.edu

Compensation

Pairs will receive:

 \$100 gift card at the end of the study

Are you eligible?

To participate you must be:

- A person diagnosed with LBD and care partner willing to participate together
- Diagnosed with mild to moderate dementia
- Have internet access with Zoom
- Fluent in English
